Mycality Mushrooms

Grown:
Fairhaven

Miles Transported:

To Arcata: 8.3

To Eureka: 4.7

Sustainable Practices:

We use no chemical fertilizers, fumigants or pesticides. Our pest management includes sticky traps for fungus gnats and white flies.

We incorporate daily cleaning of the fruiting facilities by pressure washing the fruit rooms and removing all organic debris, which is later composted. Our waste material is in turn a byproduct in the form of mushroom compost which is available for local gardeners.
